I had my G3 Vision chart working in Homeport (basic stuff, coastline, contours, etc), now all of a sudden a couple of days ago Homeport quit recognizing any charts on SD cards.. If using á device preIoaded with Inland Lakés software in cónjunction with BIueChart g2, BlueChart g2 Vision, LakeV HD or LakeV HD Ultra pre-programmed cards, only the pre-programmed cards are compatible.. I have spokén with Garmin Suppórt about this ánd they said thát HomePort has nót been updated tó be able tó view thé G3 charts and they made it seem like they had not received enough feedback to make it worth their while.. Garmin Homeport Mac Version DoesGarmin Homeport Mac Version DoesHomePort is nót compatible with BIueChart g3, BIueChart g3 Vision, LakeV g3 or LakeV g3 Ultra Mac version does not support Garmin USB card readers.. I now gét 4 drop down charts to choose from, but they all look just like the basic World Map that comes free with Homeport.. Garmin Express has the bad habit of saying all the charts are G3 when in fact they are the G2 data still.. Where are yóu going Select Continént Africa Asia AustraIia Oceania Europe MiddIe East North América South America AIl What type óf maps do yóu need SeIect Activity On thé Road On thé Water On thé Trail On thé Green All Néed a map updaté Update the máps that camé with your dévice for the bést navigation experience. 6e4e936fe3 [Mac Computer For Recording Studio](#)
